

**Betty Carolin, Clinical Coordinator**

Betty Carolin has been a Licensed Clinical Social Worker with the Charlotte White Center since 1999. She is the Clinical Coordinator for a wide array of programs serving adults and children with mental illness, intellectual disability, acquired brain injury or autism. Her role includes staff supervision, clinical systems review, staff trainings, and oversight of outpatient counseling and a batterers' group. Her extensive well-rounded background includes training and experience in geriatrics, dementia services, hospice, medical social work, mobile crisis team intervention, home health, and children and adult counseling services.

She is certified to teach English as a Second Language and was an EMT with Mayo Regional Hospital for ten years. She was one of five core instructors to be trained in Maine in the Memphis Model of Crisis intervention Training (CIT). She has been one of the lead instructors for the Piscataquis County Crisis Intervention Team for the last nine years and has contributed directly to the curriculum design and implementation of this very unique rural model of CIT. Betty is also a Certified Brain Injury Specialist and a Certified Applied Behavior Analyst.
